OMT held a paper development workshop in Beijing, China as part of the International Association for Chinese Management Research (IACMR) bi-annual meeting on June 22, 2014. Faculty mentors that made the trip to China included Phil Anderson, Forrest Briscoe, Chris Marquis and Klaus Weber. OMT also co-hosted (with Shanghai Jiaotong University) a Meet OMT Reception at the IACMR on June 20.

We had a number of generous sponsors. Shanghai Jiaotong Univeristy sponsored cost of the venue and refreshments at the reception and Peking University, Renmin University, and Tsinghua University all sponsored some of the mentors travel costs.

Demand for the workshop was relatively strong as we received 35 submissions. However, with just 4 faculty mentors, we could only accept 16 papers. Four of the participants were doctoral students; 12 were junior faculty. The following universities were represented:

- Anhui University of Finance & Economics
- Beijing Jiaotong University (2 participants)
- Chinese University of Hong Kong
- Fudan University
- Nottingham University (China)
- Peking University (2 participants)
- Rotterdam School of Management
- Sun Yat-sen Business School
- Suzhou, Xi’an Jiaotong-Liverpool University
- Tianjin University
- Tsinghua University (3 participants)
- University of Electronic Science and Technology of China (UESTC)

Our sense from this trip and interacting with participants at the broader conference and at the workshop is that there is a lot of interest in OMT topics and research!
